1999 suzuki sv650 owners manual

Did you know that... The most important maintenance task you can perform on your SV650 is to change the oil? Plenty of free flowing oil is the key to a long life for an Sv650 engine. Suzuki recommends changing your oil every 6 months or 6,000 miles, whichever comes first. In our SV650 manual, we show you everything you need to know about your oil changes, valve adjustment, how to replace the clutch cover o-ring when it starts leaking-and a lot of them do! That ticking noise you hear might be a sign that your cam chain tensioner isn't working correctly, or that your cam chain may be worn out?
